MAMA UNIVERSITY

RESPONSIBILITY
INTEGRITY
DISCOVERY
EXCELLENCE

HISTORY

MAMA was established in 2010 as a Cambodian university with a United Kingdom curriculum. There were 5 founders who envisioned a new university that would meet international standards and be based on the US educational system.

MISSION & VISION

MAMA will be a leading education of academic excellence in Cambodia and in Asia.

MAMA is a private English language higher-education institution in Cambodia, offering high-quality British-style education that is grounded in the culture of Cambodia and Asia. The university fosters socially responsible behavior, life-long learning, and academic and professional excellence, producing critical thinkers, innovators, and ethical leaders who will make significant contributions to the world.

ACADEMIC

Bachelor Degree

- Faculty of Laws

The Faculty of Laws is grounded in ethics and provides a wide range of courses in the areas of substantive law such as business law, contracts, criminal law, intellectual property, international law, etc. In addition, many law courses help students develop important skills in legal analysis, research, writing, and negotiation. Courses focus on Cambodian, United States, Comparative, and International law. Law majors also have the opportunity to practice skills that they have learned in internships with law firms, government ministries, and other organizations.

- Faculty of Engineering

The Faculty of Engineering at MAMA University strives to prepare its students with the highest quality education and research who will endure the challenges of the industry and society competently. We envision our mission by providing a learning environment that promotes integrity and creativity, professional practice, and commitment to public service.

- Faculty of Information and Computer Technology

The faculty offers a leading undergraduate program and graduate program in Information Computer Technology. The Information and Communications Technology (ICT) program is designed to develop graduates with the ability to manage and lead computer-based information systems. The program aligns the capabilities of information technology with business analysis and communications. Students are encouraged to sharpen their skills in Network Infrastructure and Security, Telecom, Data Science, Software Engineering, and Management Information systems. Undergraduate programs from both departments lead to a Bachelor of Science that requires 4 years of course study.

ACADEMIC

- Faculty of Economic and Administrative Science

The Faculty of Economics and Administrative Sciences (EAS) at MAMA University offers four undergraduate degree majors. The Faculty values student-centered and problem-based learning. The academic staff of the Faculty consists of academicians and professionals with master's degrees from leading universities, relevant professional certifications, and Ph.D. holders. The curricula of majors offered by the Faculty of Economics and Administrative Sciences are constantly revised to fit the needs of society, and industry, and to satisfy the requirements of the relevant accrediting bodies.

- English Preparation School

English Preparatory School (EPS) is an intensive English program aimed at the advancement of language performance by potential freshmen candidates. Based on the results of the MAMA University entrance exam (aka Proficiency Exam), students lacking the required English language proficiency are admitted to the EPS to enhance their language competence. EPS students are offered Academic English courses that help them master a higher level of English skills as needed by their undergraduate programs throughout their studies. To specify, students get trained in academic listening & note-taking, academic reading & annotation, academic writing, and public speaking.

ACADEMIC

Master Degree

- Master of Business Administration

MBA degree is an opportunity for professionals in different fields to learn the necessary skills for career growth and leadership. The program provides an interactive learning environment tailored to the needs of students and opportunities for networking with professionals. The core of the program includes leadership, human resource management, marketing, and finance units. The selection of elective courses provides an opportunity for students to specialize in certain files of management.

- Master of Arts in International Relations

The M.A. in International Relations program at MAMA University aims to equip graduate students with a deeper understanding of the theories and issues in international affairs so that they can analyze, comprehend, and have better insights into current global affairs. Graduates of the MA program in International Relations can pursue careers in diplomatic corps, foreign affairs ministries, international affairs offices, international organizations (such as the UN bodies), higher education institutions, as well as in governmental and non-governmental institutions.

- Master of Science in Management of Information System

This Master of Science in Management of Information Systems is designed to prepare students for challenging careers involving the design, analysis, implementation, and operation of computer-based information systems. MIS involves the use of technologies in organizations and the integration of computer skills with the functional areas of management. MIS professionals are the “communication bridge” between business needs and technology. Graduates of the MIS program can pursue careers as Business Analysts, IT Consultants, Systems Analysts, IT Development Project Leaders, Database Administrators, Business Intelligence Analysts, Data Analysts, Web Developers, and Information Systems Managers.

ADMISSION

MAMA's University offers various degree programs for you to choose from.

Bachelor admission Admission criteria and Process MAMA University accepts both national and international students who meet the admission requirements. Students applying to MAMA for a Bachelor's degree are required to submit all necessary documentation for admission and have acceptable scores and grades in their previous education. MAMA is glad to provide education to students from different backgrounds and cultures. International students help to enhance the learning environment and collegiate experience.

If transferring from another institution, you may be eligible to receive credit for coursework completed. The decision on the transfer of coursework is at the sole discretion of MAMA. Students who wish to transfer coursework must provide official transcripts and the syllabi of the courses they took.

Academic majors

- Accounting and Finance
